

New ASQM1 Series Mini Turquoise Stroke Switch

Miniature IP67 Stroke Switch with High Reliability for Detection Applications!

Panasonic, a worldwide leader in Electromechanical Products, is pleased to introduce the **NEW ASQM1 Series**! This new series is 45% smaller than conventional products, allowing for usage in smaller spaces. Featuring a sliding contact structure for silent actuation, and high contact reliability, the **ASQM1 Series** is perfect for low level load switching. The IP67 rated enclosure ensure stable operation, even when exposed to water, dust, or humidity.

Features

- Smaller Profile
- Sliding Contact Structure
- High Contact Reliability
- IP67 Rated
- RoHS Compliant

Benefits

- Useful in Applications Where Space is a Premium
- Silent Operation
- Can Be Used for Low Level Switching
- Water and Dust Resistant

Industries

- Appliances and White Goods
- Automotive

Applications

- Vacuum Cleaners
- Air Conditioners
- Washing Machines
- Door Open/Close Detection
- Shift Lever Position
