

07-Dec-2023

PCN #: P-23-025483

Subject : JPT REC 2.8 Contact SWS

Description of Change : This Product Change Notification (PCN) is to inform about tool duplication for below listed PNs according to VDA Trigger Matrix No 13. The manufacturing location remains unchanged. The change has no impact to form-fit-function.

TE Change process follows a strict procedure, which fully maintains quality and ability to supply. Internal release process is ensured by TE, including product validation as per OEM/CAM requirements. Validation will be initiated and completed according to project plan, as soon as samples are available.

PPAP will be prepared (as per agreements between the two parties, including the negotiated TE trigger matrix), a request via ePPAP (via www.te.com or request to TE Sales representative) needs to be initiated by Customer within 2 weeks after receiving of this PCN. In case no request is obtained till above mentioned date, PPAP will be considered as approved, and the change is considered as fully released.

Reason : Product improvement.Considering tool condition and capacity situation according to customer demand, we are going to optimize production capacity for affected PNs.
